

## AGGIORNAMENTO BK CON CHIP JSIGN4

### 1. Apertura GoSign da BK:

### 2. Accesso al menu "impostazioni":

### 3. Dispositivi → Mostra certificati sul dispositivo:

### 4. Se non vengono visualizzati, accedere al menu “informazioni sul dispositivo”:

5. Click sul tasto “Carica libreria”:

6. Attraverso “sfoglia” richiamare la cartella “Infocert” a bordo della BK e selezionare “bit4xpki.dll”

7. Automaticamente GoSign si riavvia e i certificati vengono rilevati correttamente:
